✓	Indicates an upgrade or improvement over previous version	
✓	Indicates an upgrade or improvement over the model below	

Featuring an all-new lightweight custom butted frame with latest generation geometry, these bikes are the very definition of a contemporary Sports Hybrid - all the confidence and surefooted capability of our modern 29er hardtails, with the practicality of a trekking bike.

Our mudguard-compatible frames are designed to accommodate modern high volume tyres, feature our proprietary BBX internal cable routing and are loaded with unique design touches and British weatherproof features - such as the forward facing seat slot that stops water spray from the rear wheel getting into the frame.

The latest Ridgeway features 2x9 speed transmission, hydraulic disc brakes, a comfort enhancing suspension fork plus a full Shimano drivetrain and is built to give years of unrivalled performance.
